Company Profile

Maharani Innovative Paints Pvt. Ltd. is an illustrious industrial paints and allied products manufacturer that adheres to international quality standards. The company started its operations in the year 1980 under the name of C.DASS CHEMICALS PVT. LTD. and over the years has earned the recognition as a manufacturer of quality Paints & Powder Coating.

AN ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, and IATF 16949:2016 Certified Company.

Maharani Innovative Paints Pvt. Ltd. has entered into a technical collaboration with internationally acclaimed Automotive Paints manufacturing company, **M/s Dai Nippon Toryo Company Ltd.**, Japan. This technical collaboration has further strengthen and enhance the quality of paints supplied by Maharani Innovative Paints Pvt. Ltd.

Product Range -

1. Pure Polyester Powders For Exterior :

Description : These are ideal coating solutions for all substrates intended for outdoor exposures with excellent resistance to sunshine and environmental conditions.

Curing Schedule : 200°/10 Min.

2. Epoxy Powders with High Chemical Resistance :

Description : These products deliver high chemical resistance and impart exceptional protective properties for metal substrates intended for usage in harsh environments & atmospheric conditions.

Curing Schedule : 190°/10 Min.

3. Epoxy Polyester Hybrid Powders :

Description : These products are made with a blend of epoxy and polyester resin which provides manufacturers and product designers with the optimum combination of decorative and protective properties for applications in wide range of products.

Curing Schedule : 180°-190°/10 Min.

4. High Abrasion Resistance Powders :

Description : These products have superior abrasion properties and exhibit Outstanding wear resistance with excellent chemical and weather resistance properties. These are specially used on parts to exhibit high wear resistance.

Curing Schedule : 200°-220°/10 Min.

5. Polyurethane Powders :

Description : These coatings exhibit a unique combination to provide excellent exterior durability and outstanding chemical resistance. They give long lasting and durable life to metal substrates with excellent mechanical resistance properties..

Curing Schedule : 200°/10 Min.

6. Metallic Powders :

Description : These are designed to provide brilliant metallic lustre and adorable effect in wide range of gloss and shades. The metal fixation technology is processed through innovative technique and provides user high quality & application friendly coating.

Curing Schedule : 180°-200°/10 Min.

7. Self Sanitizing Powders :

Description : These coatings are innovation for healthy life and are developed with self sanitizing anti-microbial technology material that makes it effective against bacterial, fungal and viral growth. The portfolio of anti-microbial technology material is carefully chosen in line with desired efficacy, regulatory compliance, material properties (thickness of coating, coating chemistry) and service conditions (light exposure, cleaning solvents, abrasiveness in use). These are applicable for all kind of metal substrates for usage in Medical Hospitals & Medical Equipment's, Kitchen & Home appliances, Furniture's, Fans, Door Handles etc.

Curing Schedule : 180°-200°/10 Min.

8. High Corrosion Resistance Anti-corrosive Powders :

Description : These are new range of excellent high anti-corrosive primers to be used for heavy duty finishes to obtain high corrosion resistance. The primers offer excellent recoat ability for both powder and liquid paints.

Curing Schedule : 190°/10 Min.

9. Heat Resistance Powders :

Description : Heat resistance Powder coatings have been developed for applications that require heat resistance properties ranging from 250°C, 350°C, 450°C, 550°C and up to extreme high heat temperatures of 650°C. The coating exhibits exceptional thermal stability with high chemical properties and good weathering properties.

Curing Schedule : 230°/25 Min.

Award

- ◆ Innovation for India Awards 2008” from Marico Innovation Foundation, Mumbai for our above Technology Jury headed by Dr. R. Mashelkar March 2008.
- ◆ Innovation of the Year Award,' by Faridabad Small Industries Association - 2008.
- ◆ Innovation of the Year' Award, by Faridabad Chamber of Commerce & Industries - 2008.
- ◆ Innovation Award on Green Technology' by Manufacturers Association, Faridabad - June 2008.
- ◆ Corp-Excel Awards (National MSME Excellence Awards) 2008' by Corp Bank for excellence in Management based on the Innovative Clean Technology, Presented by Sh. Pranab Mukherjee December 2009.
- ◆ Parivartan 2011 Award” from Carbon Outlook - March 2011.
- ◆ Skoch Achiever Award 2014 from Skoch Group - March 2014.
- ◆ Best SME for Innovation Award' by Yes Bank - 2014.
- ◆ 2nd SMEs Excellence Award 2014' by The Associated Chambers of Commerce and Industry of India November 2014.
- ◆ 5th National Award for Technology Innovation” by the Ministry of Chemicals & Fertilizers, Government of India February 2015.
- ◆ For Business innovation & contribution towards prosperity of the country “ZEE Business Dare To Dream Award” in December 2017”.
